Experience

Wholesale Development Intern

Ralph Lauren | Jun 2022 - Aug 2022

- Took the initiative to learn in detail about the RL sales process, leading presentations of new collections and concepts to retail clients such as Selfridges, Harrods and Net-a-Porter within my first month. Preparing sample line sheets for collections including RLX, and Lauren Ralph Lauren.

- Analysing, monitoring and managing samples using Launchmetrics. Assisting sellers during wholesale markets using B2B e-commerce platform NuORDER.

- Showroom organization and visual merchandising.

Assistant Fashion Designer Internship

PONER | Jun 2021 - Aug 2021

- CAD professional technical drawings (Tech Packs/Spec Sheets) for manufacturers using Adobe Illustrator, namely a two piece set of women's garments for the new Poner Collection. This new approach digitalised and partially automated technical design development for this brand using Adobe software.

- Consulting bespoke orders with clients, e.g. evening gowns for KVIFF, logistics, ordering, packing and shipping sewing supplies for manufacturers and factories.

- Presenting sustainable methods using Microsoft PowerPoint, such as zero-waste pattern cutting and using organic and recyclable fabrics to the creative director who took these ideas on board.

Fashion Sales Associate

Egoist Fashion | Jul 2019 - Aug 2019

- Assisting and advising customers on various fashion choices in different languages and giving them essential knowledge about offered fashion brands, their concepts and history.

- Negotiating prices with fashion designers such as Rundholz or Azizi and giving them relative arguments, e.g. Microsoft Excel charts which let me immediately contribute to the business.

- Working under pressure when Egoist was short-staffed and AW 20 18 clearance started.
