About

I am a Senior Designer W/M at Barbara Bui in Paris and I am currently looking at new opportunities for a creative luxury brand .

I have always had a real passion for volume research and shape. A passion that very early on pushed me to specialize as a creative tolist in addition to drawing.

I believe my varied experiences and expertise would be a valuable addition include to creative luxury brand:

My autonomy and my know-how which facilitate my relationship within the studio and workshop.

My creative universe, adaptable to the particularities of differents artistic direction .

My rigor and my technical skills which allow me to concretize collection prototypes up to the showroom, adapted to the quality grade of a luxury brand .

Best regards
