About

I have a passion for visual arts, photography, textile and graphic design. I have extensive knowledge of Adobe software suit including Photoshop, Illustrator, In-Design, AfterEffects alongside great research skills which I have picked up during the course of my studies and during a practical work-placement at Kiwie1001 and L'Officiel Baltics. Excellent at using Microsoft Office and Figma.

Since starting out in the field of design I have accumulated 3+ years of experience through a variety of roles complementing my academic skills and develop a connection. I am a target driven, determined person who is prepared to dedicate my full attention to work, creativity and the development of the new skills necessary to succeed in the work place.

I have excellent communication, teamwork, interpersonal skills. I am particularly interested in the newest trends in design, cultural awareness, editorials and the finding of new visual solutions to problem solving. As I can work as well on brand identity, logo development, editing, book making, poster design, 3d visual designs and branding.

Very important part of my life is as well wellness and spirituality. As a creative I trust my own creative process and the surprising outcomes that can be developed through intense creative vision.
