About

Highly dedicated and meticulous laboratory assistant with a strong background in scientific research and laboratory techniques. My sales experience enhances my exceptional customer interaction and communication skills. Proficient in equipment operation, and sample preparation, ensuring precise and reliable results. Demonstrated problem-solving abilities and fast, accurate service in sales roles. Adapt at maintaining lab safety and adhering to protocols with keen attention to detail. Complemented by an educational journey in Molecular Medicine and a Bachelor's degree in Microbiology, I am well prepared to contribute significantly to research endeavors. A proactive team player thriving in collaborative environments, capable for working under pressure and managing time efficiently. Excited to leverage this diverse background to promote scientific progress and contribute to your organization's seamless research environment.

BRANDS WORKED WITH
