About

As a Digital Executive at rlvd, a circular luxury fashion marketplace and community, I contributed to various aspects of the startup's growth and operations, from marketing communications and fashion copywriting to hiring and project management. rlvd was a B2C startup — part of Parker Lane Group, a Resale as a Service platform that offers a full stack recommerce solution for managing excess inventory.

I graduated in 2022 from the University of St Andrews with a First class degree in Management and Modern Languages (French and Spanish). I have a passion for international management of fashion and luxury goods brands, with a strong focus on sustainability. I have also gained valuable experience in online marketing, social media marketing, and website development at Truefitt & Hill London, where I worked as the Marketing Executive. My goal is to leverage my skills, education and domain expertise to create positive social and environmental impact in the fashion industry.
